EVAPCO  
FAN MOTORS

**EVAPCO HEAVY DUTY FAN MOTORS** are designed for the harsh operating conditions of evaporative equipment applications, incorporating design features integral to maintaining fan motor operational performance in 100% humid operating environments. Trust EVAPCO to build the appropriate fan motor with modifications to suit the required application for EVAPCO or competitors equipment. EVAPCO heavy duty motors are backed by an industry leading (2) year warranty and national network of Mr. GoodTower service centres. EVAPCO AUSTRALIA warehouse an extensive inventory of standard and customised fan motors to suit EVAPCO and competitors evaporative cooling equipment . Stock motors can ship same day to reduce equipment downtime.
